PROJECT PROPOSAL

Course Code	CSE311L	
Course Title	Database Systems Lab	
Faculty Name	Dr. Nabil Bin Hannan [NLH]	
Lab Instructor	Md. Amanullah Shah	
Section	03	
Group / Team Number	03	
Date of Submission	10 th July, 2026	
Group Members Name & ID	Abid Khan	2411836042
	Mejbah Uddin	2322699042
	Sudipto Sarkar	2321173042
	Swarnaly Debroy Joyeta	2212919042

Project Proposal — Submission Form

1. Project Title & One-Line Description

“Smart Disaster Relief Management System”—This project focuses on improving the disaster management process and smoothing the relief distribution system by ensuring transparent resource allocation, efficient resource management, effective allocation of the proper number of volunteers and funding, and through having this, the NGOs and the government can have a clear idea of what type of disaster a certain zone is and what type of precautions they need to have beforehand in order to have a streamlined transition.

2. Problem Statement

Every year in Bangladesh, about 6.3 million people face severe natural disasters, and according to some local studies, around 40% of the affected people become completely isolated from relief due to poor management and distribution systems. Thus, having a proper and centralized system can help overcome this situation through effective resource allocation.

3. Core Features / Scope

- Helps to identify the exact number of affected people, their gender, age and other informations in a certain zone.
 - Helps to predict the type of disaster and the amount of budget it requires for a specific zone
 - Helps to ensure proper allocation of resources in almost all zones
 - Helps to track which zone still has not received any relief
 - Helps to ensure transparency of the authority for resource distribution
 - Helps find vacant shelter for the victims so that they do not have to remain unguarded
-

4. Team Roles

Student Name	Student ID	Role
Abid Khan	2411836042	Database Design and Creation
Mejbah Uddin	2322699042	Database Design and Creation
Sudipto Sarkar	2321173042	Frontend GUI and hosting
Swarnaly Debroy Joyeta	2212919042	Frontend GUI and hosting
